

WIMBLEDON 2026 · MEN'S SINGLES

Quarterfinal Predictions

Grass-Elo win probabilities, full scoreline breakdowns for all 4 quarterfinals, and a 1,000,000-run Monte Carlo simulation of the road to the title.

QF1 Jannik Sinner vs Jan-Lennard Struff

QF2 Novak Djokovic vs Felix Auger-Aliassime

QF3 Flavio Cobolli vs Arthur Fery

QF4 Taylor Fritz vs Alexander Zverev

Methodology, sources & caveats on the final slide

Fanis Vyronos · github.com/fanisvyronos13

QUARTERFINAL 1

Jannik Sinner vs Jan-Lennard Struff

Jannik Sinner

gElo 2088.3

93.6%

VS

Jan-Lennard Struff

gElo 1623.1

6.4%

FULL SCORELINE BREAKDOWN

	Sinner	Struff
Straight sets (3-0)	49.7%	0.9%
In 4 sets (3-1)	31.0%	2.1%
In 5 sets (3-2)	12.9%	3.4%

H2H: Sinner leads 3-0 overall (1 win on grass, Halle 2024)

Path to QF: Sinner: d. Kecmanovic, Borges, Brooksby, Mochizuki. Struff: d. Baez (5), Nakashima (5), Medvedev, Hurkacz (ret.)

Struff, 36, is the oldest man in the Open Era to reach a maiden major QF. Sinner has never lost to him, and owns the largest gElo gap of any 2026 men's QF.

QUARTERFINAL 2

Novak Djokovic vs Felix Auger-Aliassime

Novak Djokovic

gElo 1924.9

68.6%

VS

Felix Auger-Aliassime

gElo 1789.1

31.4%

FULL SCORELINE BREAKDOWN

	Djokovic	Auger-Aliassime
Straight sets (3-0)	21.8%	6.3%
In 4 sets (3-1)	26.1%	11.4%
In 5 sets (3-2)	20.7%	13.7%

H2H: 1-1 (Djokovic won Rome '22 tour-level; AA won 2022 Laver Cup exhibition)

Path to QF: Djokovic: d. Wu, Tsitsipas, Rinderknech, Safiullin (106th Wimbledon win, all-time record). AA: d. Shevchenko, Prizmic, Zheng, Davidovich Fokina (5 sets)

Djokovic is into his 17th Wimbledon QF; Auger-Aliassime his first. Closer than the raw seeding suggests. AA's serve has been elite all fortnight.

QUARTERFINAL 3

Flavio Cobolli vs Arthur Fery

Flavio Cobolli

gElo 1742.2

70.3%

VS

Arthur Fery

gElo 1592.5

29.7%

FULL SCORELINE BREAKDOWN

	Cobolli	Fery
Straight sets (3-0)	22.9%	5.8%
In 4 sets (3-1)	26.7%	10.7%
In 5 sets (3-2)	20.7%	13.1%

H2H: 1-0 Cobolli (first-ever meeting)

Path to QF: Cobolli: d. Navone, Duckworth, Khachanov, De Minaur. Fery: d. Dzumhur, Virtanen, Bergs, Dimitrov (5 sets, saved match points)

Fery, a British wildcard ranked No. 114 who grew up minutes from the All England Club, is only the 5th Open Era wildcard to reach a Wimbledon QF.

QUARTERFINAL 4

Taylor Fritz vs Alexander Zverev

Pending - Zverev's final set in R16 resumes today

Taylor Fritz

gElo 1856.6

41.9%

VS

Alexander Zverev

gElo 1913.6

58.1%

FULL SCORELINE BREAKDOWN

	Fritz	Zverev
Straight sets (3-0)	9.5%	16.1%
In 4 sets (3-1)	15.5%	22.0%
In 5 sets (3-2)	16.9%	20.1%

H2H: 4-4 overall, Fritz leads 2-0 on grass (most recently Stuttgart 2026)

Path to QF: Fritz: d. Lajovic, Kypson, Sonogo, Bublik. Zverev: d. Blockx, Royer, Giron, leads Lehecka 6-4 7-5 3-3 (suspended by curfew)

Opponent not fully confirmed. Zverev leads 2 sets to love and needs just one more to close out Lehecka. Treated here as high-confidence, not final.

Road to the Title

Probability each confirmed quarterfinalist reaches the semifinal, final, or wins the title.
Simulated from real Grass Elo ratings, using the actual 2026 bracket.

Full scoreline breakdowns (straight sets / 4 sets / 5 sets) are on each quarterfinal's own slide.

HOW THIS WAS BUILT

Methodology & Sources

● Grass Elo (the real driver)

Every win % comes from one formula: $P(A \text{ beats } B) = 1 / (1 + 10^{-(\text{EloA} - \text{EloB})/400})$, using real Grass Elo ratings from Tennis Abstract.

● Scoreline breakdowns

Derived from that same win probability via the standard best-of-5 formula (independent-sets assumption). Every number on this carousel traces back to one input.

● Monte Carlo simulation

1,000,000 simulated brackets, using the real draw structure and the same Elo formula for every simulated match.

● Known limitation

QF4's opponent (Zverev vs Lehecka) wasn't 100% finalized at publish time. Treated here as high-confidence, not certain.
